

Y11 Key Information-You Only **Leave** Once!

You have to remain in education or training until you are 18. This does not mean you have to stay on at school after Year 11. You can:

- Stay in full time education at any 6th form or college.
- Do full-time work-based learning such as an Apprenticeship.
- Do part-time training alongside working (including self-employment) or volunteering for over 20 hours a week.

In school, in your PD/PSHE lessons, you will put together a career portfolio including a CV and use Unifrog which will prepare you for the next step in your career. This will include visitors from local colleges and providers who will be able to give you lots of advice. You will all have the chance to meet with a careers adviser from Careers South West to talk through your options and some of you will have more than one appointment, this decision is yours, the more work you do the happier you will be with your choice. Remember you need to do all you can to achieve at least grade 4 in Maths and English else you will have to redo these wherever you go.

You need to begin your research NOW, all providers will have Open events and they will open at different times for applications.

Apprenticeships

You can do an apprenticeship in anything apart from medicine, if you are interested, please see Mrs Gue. In the meantime, you need to work hard to find an employer that will take you on, eg a garage if you want an Apprenticeship in mechanics. You will also need to register with a training provider, which may be Cornwall College or City College – see their prospectuses. You should also register on the National Apprenticeships website, all interested students will have specific talks on apprenticeships and support with applying, it is principally the same as applying for a job, CV's are very important, remembering you will be studying alongside working :
