Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which pupils with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to pupils with disabilities

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. We are committed to establishing equality for all pupils, their parents, staff and all other members of our school communities. It is the responsibility of all school communities to implement this aim in a manner which promotes the inclusive ethos of those school.

With reference to the Equality Act 2010, training and information sharing initiatives will recognise the need to raise awareness on a continuing basis for staff and governors on equality issues, including understanding disability issues.

The trust supports any available partnerships in helping us to develop and implement our school accessibility plans. We will also include other stakeholders as appropriate in this.

Our trust's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in one of the schools in the trust, this procedure sets out the process for raising these concerns. However, issues relating to an individual school's Accessibility Plan should be raised with the Headteacher in the first instance.

Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The

definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

The plan is designed to identify and eliminate barriers that might prevent students from fully participating in school activities, both academically and socially. The School is required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a pupil with disabilities faces in comparison with a pupil without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

The School Accessibility Plan can be provided in paper form or via an alternative means of communication if required.

We ask that parents/carers contact the school SENDCo for more detail about accessibility for their child if required. Contact details are available on the school website.

Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

AIM	CURRENT GOOD PRACTICE Include established practice, and practice under development	OBJECTIVES State short, medium and long-term objectives	ACTIONS TO BE TAKEN	PERSON RESPONSIBLE	DATE TO COMPLETE ACTIONS BY	SUCCESS CRITERIA
